

Summer Consultant

Job Profile

You aspire to become a leader in global development by tackling global issues, from malnutrition to climate change to economic growth, ensuring no individual is left behind. You enjoy working hard and collaborating with teams while traveling and working across continents and cultures. You are a problem-solver and excel at clear strategic thinking and quantitative and qualitative analysis, and you want to hone these skills and put them to work – transforming organizations, advising investors, and shaping new initiatives. You are an entrepreneurial doer that is ready to jump in and help us take our firm to the next level. You have been a ‘top-performer’ in your previous career. You are passionate about development.

Our client combines ground-level insight – anchored by our offices around the globe – with high quality strategic advice from our staff, who have experience at top-tier professional services firms, leading academic institutions and high-impact social enterprises. Together, we create actionable solutions to the world’s most pressing issues.

Qualifications:

- Full-time graduate student getting an MBA, MPA, MPP, and/or other similar degree with expected graduation date of May/June 2017, or May/June 2016 for one-year graduate programs
- Bachelor’s degree in Economics, Business, International Relations, Science, Math, Engineering or a related field
- Excellent academic record
- Experience working in a leading international management consultancy firm, financial services firm or similar type of private sector experience; or, experience working in a strategic role for a high-performing social or public sector organization
- Strong analytical abilities, both quantitative and qualitative
- Ability to present information in an insightful and structured manner, both written and oral
- Demonstrated ability to lead teams to accomplish ambitious goals
- Understanding of the political and cultural environments of international organizations or environments
- In addition, if you have skills or abilities in the following areas, please be sure to let us know in your application:
 - Fluency in foreign languages
 - Experience with financial analysis and/or statistics

Demonstrated ability to innovate new programs, ideas or initiative
