

KENYATTA UNIVERSITY HUAWEI ACADEMY

HCIA-R&S (Huawei Certified ICT Associate) Training

HCIA certification validates the knowledge and skills required for basic configuration and maintenance of small to medium-sized networks. The HCIA curriculum includes, but is not limited to the following:

- Network fundamentals
- Basic connection methods of popular networks
- Basic network construction
- Troubleshooting of common network faults
- Installation and commissioning of Huawei routing and switching devices

With HCIA certification, you demonstrate (1) a basic understanding of small and medium-sized networks, including general network technologies, and (2) the ability to assist the design of small and medium-sized networks, and implement the designs using Huawei routing and switching devices.

With engineers who are HCIA certified, enterprises are able to construct simple networks and integrate voice, wireless, cloud, security, and storage technologies into their networks in order to support a variety of applications.

Training Path

HCIA-HNTD Entry
Huawei Networking Technology and Device

OARS1 Lecture Hands-on exercise 30 days

HCIA-HNTD Intermediate
Huawei Networking Technology and Device

OARS2 Lecture Hands-on exercise 30 days

Can get the HCIA certificate when passing the corresponding exam above.

Curriculum

HCIA

Course	Duration
Introduction-The Basic Enterprise Network Architecture	0.5
Building Basic IP Networks	1
Huawei Device Navigation and Configuration	0.5
Supporting and Maintaining Enterprise Local Area Networks	1
Establishing Internetwork Communication	1.5
Implementing Network Application Services	0.5
Introduction - Advanced Enterprise Network Solutions	0.5
Local Enterprise Network Features and Services	0.5
Connecting Beyond the Enterprise Network	1.5
Securing the Enterprise Network	1
Enterprise Network Management Solutions	0.5
Supporting IPv6 Networks	1

Target Audience

- University Students
- Form Four Leavers
- Network Engineers

Prerequisites

- A basic understanding of Network
- A general understanding of PC operating system

Duration

- Two Month for part-time & fulltime classes
- Three Month for Saturday Only classes

Part-time classes starts at 5.30-7:30 pm,
Saturday :Morning Session & afternoon Session

Training Dates

- 20th January 2019 to 20th February 2019

Cost

- KES Ksh 20,000 for students and Ksh 25,000 for non-students

Venue

CIT Computer Labs

How to apply

- Register with Secretary CIT department(Rm 208) at CIT Building Opp Twin Towers(art Complex)

Certify Today. Master Tomorrow.
